“ My dad loved the outdoors. Especially fishing and camping but also loved to go fossil hunting. When he wasn't outside spending time with family his weakness was video games. He would play for hours dedicated to solving the games quickly. When we were kids we were always traveling to visit family on both sides so we could get to know everyone love you dad and will miss you always.

“ Glenn my dad was a good man and a great dad. You were strict with us at times but only because you were being protective. You taught me how to tie my shoes you taught me how to drive and you came home to where we were your home. You are always with us and always home

You were always there for family and I'm glad we were there for you as well in our hearts you are always here

“ When I met my husband a voice said to me " you'll marry him " that was good because I was already in love. We told each other it was love at first sight for both of us. He gave me my most precious gift , my children . I will miss you forever until we meet again
