“ Our condolences and love to the family.

We have a beautiful service of love we would like to offer. Most often it takes place at the end of a graveside service or a special day the family chooses.

There are few things more powerful than the release of white doves in remembrance of our loved ones. Bringing both closure and hope to all who attend. Our white doves are an excellent visual that will surely be remembered.

White Doves are a vivid symbol of hope and love. A close friend, relative or family member can release the first dove, symbolizing the one we have come to honor.

Then, a flock of the white doves are released and unite with the first as they all gracefully circle overhead. Shortly after, the doves fly off into the horizon and return home. This is very symbolic of the way our Spirit returns home one day and unites with loved ones.
