“ Nannette,  
Val is right, what I remember most about you is your wonderful smile! I know that while you are in a better place, it still is hard to know you are gone. But thank you for the 3 wonderful children that you brought into the world-I still hold the memory of watching Justin for you and holding that dear sweet little one and then Jeff and Heather are the two most beautiful kids anyone could want.  
I love and will miss you!

“ Hi Nannette, Once again I am so sadly reminded of how short our time is in this life. I have the most vivid memories of you when you were just a toddler and I was 10 or so and how I thought it was funny to try to frighten you in my childish 10 year old ways. But to no avail. Fear was not a part of your thoughts when you were so young and never hindered your progress as you grew throughout the short years of your life. I have no fear or doubts at this time that you are close to our heavenly father and that a much better life for you continues to be yours throughout eternity. I pray for our family and for your friends because the very kind and sweet person that you are will leave such an emptiness in our hearts until we reunite with you. In spite of this, I am so pleased for you as I believe in my heart that you are enjoying a happy and painless reunion with so many family members and friends who had gone on before you. I pray for you and for those that will miss you so much. My biggest desire for this family is that we become stronger and find the need to spend more of our time with each other. I have regrets of not spending more time with you and with everyone here and those whom you visit with now. Please Dear Father bless us to know the importance of family and to help eliminate this regret from our lives as we spend more of this precious time with the ones we love. Let us not have such busy lives that we forget what this life is all about. These things I pray in Jesus name, Amen.

Missing you dearly, your brother Ken.

“ Dear Auntie Nan, I will never forget you. You were only 13 when I was born. I admired all you did and remember fondly watching you put on makeup. I was your flower girl in your wedding. You also let me witness the birth of your daughter, you let me choose her middle name. What a precious gift that was for me. Now you can be with dad and the rest. Give him loves for me. I love you!!
